According to Regulation (EC) No 1907/2006 [REACH] Article 3(3) this product is classified as article, hence no obligation exists to create a safety data sheet as required by REACH Article 31. This Product Information was created in the style of REACH Annex II/Regulation (EU) 2020/878 to inform about a safe and careful handling with this product.

Section 1: Identification of the article and of the company

1.1 Product Identifier

Pyromex™ CPX

REACH-registration status

This product is treated as an article. Articles are exempted from registration in accordance with Regulation (EC) No 1907/2006.

1.2 Relevant identified uses of the article and uses advised against

Manufacturing of Carbon Composites.

Uses advised against

None known.

1.3 Details of the supplier

Teijin Carbon Europe GmbH
 Kasinostr. 19-21
 42103 Wuppertal
 GERMANY
 Tel: +49 202 32 32 25
 Homepage: www.tejincarbon.com

Qualified person

E-Mail: safety@tejincarbon.com

1.4 EMERGENCE TELEPHONE NUMBER

Not available for this version.

Section 2: Hazards identifications

2.1 Classification

This product is an **article**, and hence does not require a classification and labelling according to EU regulations.

2.1.1 Self-Classification according to Regulation (EC) No 1272/2008 [CLP]

Not classified as hazardous. See chapter 3

2.2 Self-Labeling elements according to Regulation (EC) No 1272/2008 [CLP]

Not subject to classification.

Precautionary instruction

P280: Wear protective gloves.

Supplemental hazard information (EU)

Not known.

2.3 Other hazards

The product does not contain any **vPvB** substances or is not included under Annex XIII of Regulation (EC) 1907/2006 above legal concentration limits ≥ 0.1 % (w/w).

The product does not contain any **PBT** substances or is not included under Annex XIII of Regulation (EC) 1907/2006 above legal concentration limits ≥ 0.1 % (w/w).

The product does not contain Substances of Very High Concern (**SVHC**) acc. to REACH Regulation (EC) No 1907/2006, Art. 59 above legal concentration limits of ≥ 0.1 % (w/w).

The product does not contain any constituents that are in accordance with REACH Article 57(f), Regulation (EU) 2017/2100, or Regulation (EC) 2018/605 in quantities of 0.1% (w/w) or more have **endocrine disrupting** properties.

Other hazards which do not result in classification

None known.

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

Section 3: Composition/information of ingredients

3.1 Product type

This product is an **article** acc. to regulation (EC) 1907/2006 [REACH].

It does not contain any substances that are intended to be released under normal or foreseeable applications.

Description

Oxidized PAN (polyacrylonitrile) fiber.

3.2 Composition/information of ingredients

Not classified

Section 4: First aid measures

4.1 Description of first aid measures

General information

No special measures necessary. Avoid contact with unprotected body parts.

Following inhalation

In the case of fiber dust inhalation, bring affected person to fresh air. If respiratory irritation persists, seek medical attention.

Following skin contact

In the case of contact with skin, rinse affected area thoroughly with lot of cold water. Do not use warm water since it aggravates the skin itching/irritation. Consult a doctor if skin irritation persists.

Following eye contact

In the case of eye contact, rinse the affected eye thoroughly for a few minutes. Remove contact lenses, if present and easy to do, continue rinsing. If eye irritation persists, seek medical attention.

Following ingestion

Not applicable.

Self-protection of the first aider

Self-aider: Pay attention to self-protection!

4.2 Most important symptoms and effects, both acute and delayed

Symptoms and Effects

Preexisting sensitization and skin disorders may be aggravated.

4.3 Indication of any immediate medical attention and special treatment needed

Special treatment

First aid, treatment of symptoms.

Notes for the doctor

Treat symptomatically.

Section 5: Firefighting measures

5.1 Extinguishing media

Suitable extinguishing media

Foam, dry powder, water spray jet, carbon dioxide.

Unsuitable extinguishing media

Full water jet.

5.2 Special hazards arising from the article

Hazardous combustion products

Hydrogen cyanide (HCN) may be produced above the degradation temperature above ≥ 300 °C in air (≥ 290 °C surface coating). Carbon oxide (COx) and nitrogen oxides (NOx) are also known decomposition by-products.

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

5.3 Advice for firefighters

Special protective equipment for firefighters

Wear a self-contained breathing apparatus and chemical protective clothing.

5.4 Additional Information

Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

Section 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedure

For non-emergency personnel

Wear personal protective equipment, see section 8

For emergency responders

Remove persons to safety. Isolate hazard area and deny entry. Ventilate closed spaces before entering. Use personal protective equipment, see section 8.

6.2 Environmental precautions

No special measures are required.

6.3 Methods and material for containment and cleaning up

For containment

Not known.

For cleaning up

Clean contaminated objects with damp cloth. Dispose of contaminated material in accordance with regulations.

6.4 Reference to other sections

Handling and storage, see section 7.

Personal protection, see section 8.

Disposal considerations, see section 13.

Section 7: Handling and storage

7.1 Precautions for safe handling

Protective measures

Wear personal protective equipment. See Section 8.

Measures to prevent fire

Not applicable.

Measures to prevent aerosol and dust generation

At all stages of the operation/processing, ensure extraction of dust by adequate ventilation, especially in confined areas.

Measures to protect the environment

Not known.

Advice on general occupational hygiene

General hygiene rules must be observed: Wash hands before breaks and at the end of work. Wash contaminated clothing prior to re-use.

7.2 Conditions for safe storage, including any incompatibilities

Technical measures and storage conditions

Recommended storage temperature: ≤ 50 °C, relative humidity ≤ 85 %.

Requirements for storage rooms and vessels

Store the product in dry rooms in the original packaging.

Further information on storage conditions

Store and keep away from direct sunlight and other UV-light source.

7.3 Specific end use(s)

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

Recommendations
 Intermediate product

Specific end uses
 See chapter 1.2.

Section 8: Exposure controls/personal protection

8.1 Control parameters

8.1.1 Occupational exposure limits

No	Substance	CAS No	Occupational exposure limits (OEL)		Monitoring and observation processes	Sources Limit value type Country of origin
			Limit value Eight hours	Limit value Short term (15 min)		
	Workplace limits for dust in general (ASGW)	-	-	1.25 A mg/m ³ 10 E mg/m ³	Exceedance factor = 2	TRGS 900, 521 GESTIS Limit Values Germany (AGS)

Biological limit values
 Not applicable.

DN(M)EL-Values
 Not applicable.

PNEC-Values
 Not applicable.

8.2 Exposure controls

Individual protection measures when processing the product, such as personal protective equipment:

Appropriate protective equipment

Ensure adequate ventilation on workplace. Mechanical processing should be preferable taken place in confined areas or separate facilities. Technical machinery, electric and electronic devices should be protected against static charge and short circuit.

Personal protective equipment

Eye and face protection

Suitable eye protection

Protection goggles at all stages.

Skin protection

Hand protection

Wear protective gloves when handling the product. For sufficient protection use gloves according to EN 374. Nevertheless, before using protection gloves for the first time, they should be tested for their workplace-specific suitability (e.g. mechanical resistance, product compatibility and antistatic properties). For further information, please contact the glove supplier.

Glove material: Nitrile rubber, thickness ≥ 0.4 mm

Penetration time: ≥ 2 h (120 min)

Body protection

Wear clothes with long sleeves. A work coat is recommended when handling the product.

Respiratory protection

If technical exhaust or ventilation measures are not possible or insufficient, respiratory protection should be worn.

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

In case of vapors and/or dust, use breathing apparatus. Short time (max. 20 min). Half-/quarter mask with A2P2 filter.

Thermal hazards

No specific hazards.

Environmental exposure controls

Not specified.

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Form	Color	Odor	Odor threshold
Solid, fibre	Black	Not specified	Not available

Basic physical and chemical properties

Parameter	Value	Method	Remarks
pH level [20 °C]	Not applicable		
Melting point/ freezing point [°C]	Not applicable		Carbon fiber
Initial boiling point/ Boiling range [°C]	Not specified		
Flash point [°C]	Not specified		
Evaporating rate	Not available		
Inflammability (solid, gaseous)	Not available		
Lower explosion limits	Not available		
Upper explosion limits	Not available		
Vapor pressure [Pa]	Not available		
Vapor density [°C]	Not available		
Relative Density [°C]	1.2 – 1,6 g/cm ³		At 23 °C
Solubility (solvents) [°C]	Not available		
Partition coefficient: n-Octan/Water [K _{ow}]	Not applicable		
Auto-ignition temperature [°C]	Not applicable		
Decomposition temperature [°C]	≥ 290 °C		Ambient air
Viscosity, flow time [23 °C]	Not applicable		
Viscosity, dyn. [mPas/20 °C]	Not applicable		
Explosive properties	Product is not explosive		
Oxidizing properties	None known		

9.2 Other information

Not known.

Section 10: Stability and reactivity

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

- 10.1 Reactivity**
Product is not reactive under conditions for transfer, storage and applications. See Chapter 7.2
- 10.2 Chemical stability**
Product is stable under conditions for transfer, storage and applications. See Chapter 7.2
- 10.3 Possibility of hazardous reactions**
Accumulation of dust may entail the risk of a dust explosion in the present of air.
- 10.4 Conditions to avoid**
Do not heat up above decomposition temperature mentioned. See Section 5.2, 9.1.2.
- 10.5 Incompatible materials**
No information available.
- 10.6 Hazardous decomposition products**
None known if used for intended purpose.

Section 11: Toxicological information

**11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008
 Assessment / Classification of the product**

Acute toxicity

Tenax™ Filament Yarn						
Parameter	Endpoint	Value	Species	Result / evaluation	Method	Remark
Acute oral toxicity	ATE	-	-	-	-	-
Acute dermal toxicity	ATE	-	-	-	-	-
Acute inhalative toxicity (vapor)	ATE	-	-	-	-	-

Due to calculated ATE values, acute toxicity of the product is not expected. Based on available data, the classification criteria are not met.

Skin corrosion/irritant

Based on available data, the classification criteria are not met.

Serious eye damage/eye irritation

Based on available data, the classification criteria are not met.

Sensitisation to the respiratory tract/skin

Based on available data, the classification criteria of respiratory sensitisation are not met.
 Based on available data, the classification criteria of skin sensitisation are not met.

Germ cell mutagenicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met.

Reproductive toxicity

Based on available data, the classification criteria are not met.

Overall assessment on CMR properties

This product does not meet the criteria for classification as CMR category 1A or 1B according to CLP.

Specific target organ toxicity (single exposure)

Based on available data, the classification criteria are not met.

Specific target organ toxicity (repeated exposure)

Based on available data, the classification criteria are not met.

Aspiration hazard

Based on available data, the classification criteria are not met.

Revision date / version: 1 December 2021 / version 03
Replacing version dated / version: 20 August 2019 / version 02
Valid from / PDF print date: 1 December 2021

No data available.

Specific target organ toxicity (repeated exposure)

Practical experience / human evidence

No data available.

Animal data

No data available

Aspiration hazard

Practical experience / human evidence

Not applicable.

Experimental data

Viscosity data. See Section 9.

11.2 Information on other hazards

Endocrine disrupting properties

No data available.

General information

Starting from the resin matrix: Once sensitized, a severe allergic reaction may occur when subsequently exposed to very low levels.

Fiber and dust abrasion can cause mechanical irritation of the skin and respiratory tract.

Carbon fiber itself does not emit WHO-fibre particles that are respirable (IARC). Definition of WHO-fibre particle: length $\geq 5 \mu\text{m}$, diameter $\leq 3 \mu\text{m}$ and length-to-diameter ratio 3:1.

Section 12: Ecological information

12.1 Toxicity

Toxicity of the product

Assessment / Classification

Aquatic toxicity

Based on available data, the classification criteria are met.

Sediment toxicity

Not classifiable due to data lacking.

Terrestrial toxicity

Not classifiable due to data lacking.

Toxicity information of the ingredients

Acute (short-term) fish toxicity

No data available

Chronic (long-term) fish toxicity

No data available.

Acute (short-term) toxicity to crustacean

No data available.

Chronic (long-term) toxicity to crustacean

No data available

Acute (short-term) toxicity to algae and cyanobacteria

No data available.

Toxicity to other aquatic plants and organisms

No data available.

Toxicity to microorganisms

No data available.

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

Sediment toxicity

No data available.

Terrestrial toxicity

Toxicity to soil microorganisms except arthropods

No data available.

Toxicity to terrestrial arthropods

No data available.

Toxicity to terrestrial plants

No data available.

Toxicity to birds

No data available.

12.2 Persistence and degradability

Assessment / Classification

BADGE is based on available data readily degradable.

Abiotic Degradation

No data available.

Biodegradation

No data available.

12.3 Bioaccumulative potential (BCF)

Assessment / Classification

Based on available data, the classification criteria are not met.

12.4 Mobility in soil

No data available.

Assessment / Classification

Not classifiable due to data lacking.

Mobility in soil of the ingredients

No data available.

12.5 Results of the PBT and vPvB assessment

The product does not contain any vPvB substances or is not included under Annex XIII of Regulation (EC) 1907/2006 above legal concentration limits ≥ 0.1 % (w/w).

The product does not contain any PBT substances or is not included under Annex XIII of Regulation (EC) 1907/2006 above legal concentration limits ≥ 0.1 % (w/w).

12.6 Endocrine disrupting properties

The product does not contain any constituents that are in accordance with REACH Article 57(f) or Commission Delegated Regulation (EU) 2017/2100 of the Commission or the Delegated Commission Regulation (EU) 2018/605 in quantities of 0.1% (w/w) or more have endocrine disrupting properties.

12.7 Other adverse effects

None known.

Section 13: Disposal considerations

13.1 Waste treatment methods

Product residues should be disposed of in compliance with Directive on Waste 2008/98/EC as well as national and regional regulations. For the product, it is not possible to determine a waste code number according to the European Waste Catalogue (EWC) as only the intended use by the customer enables an allocation. The waste code number has to be determined within the EU in accordance with the local waste disposer.

Product / Packaging disposal

List of proposed waste codes/waste designations in accordance with AVV.

Waste treatment-relevant information

Not specified.

Revision date / version: 1 December 2021 / version 03
Replacing version dated / version: 20 August 2019 / version 02
Valid from / PDF print date: 1 December 2021

Sewage disposal-relevant information

Not specified.

Other disposal recommendations

Non-contaminated packaging may be taken for recycling.
Contaminated packaging must be disposed of like the product.

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

Section 14: Transport information

	Land transport (ADR/RID)	Inland waterways (ADN)	Marine transportation (IMDG)	Transport by air (ICAO-IT/ IATA-DGR)
14.1	UN-Number -			
14.2	UN proper shipping name NO DANGEROUS GOODS			
14.3	Transport hazard class(es) -			
	Label -			
14.4	Packing group -			
14.5	Environmental hazards -			
14.6	Special precautions for user See section 6 to 8.			
14.7	Transport in bulk according to Annex II of MARPOL 73/78 and IBC-Code Not applicable.			
14.8	Additional information Not applicable.			

Section 15: Regulatory information
15.1 Safety, health and environmental regulations/specific legislations
EU regulations
Authorizations and/or restrictions on use

Not applicable.

Other EU regulations
VOC directive (2004/42/EG)

The product may emit volatile organic substances under processing conditions.

Ozone layer (Reg. EC No. 1005/2009)

Product does not contain substances that deplete the ozone layer.

Employment restriction

When processing the product, observe employment restrictions for child bearing mothers and nursing mothers, and furthermore, observe employment restrictions under the law for the protection of young people at work (94/33/EC Article 7)

Fluorinated greenhouse gases (Reg. EU No. 517/2014)

Product does not contain fluorinated greenhouse gases.

RoHS 2011/65/EU and amendments

This product does not contain any substances listed in RoHS (or contains in concentrations below the limits as specified therein).

Persistent organic pollutants (Reg. EC No 850/2004)

Product does not contain any persistent organic pollutants substances.

Export and import of dangerous chemicals (Reg. EC No 689/2008)

Product does not contain any dangerous chemicals according to the export and import regulation.

Seveso-III-Directive (2012/18/EU)

Product is not subject to Seveso-III-Directive.

Revision date / version: 1 December 2021 / version 03
 Replacing version dated / version: 20 August 2019 / version 02
 Valid from / PDF print date: 1 December 2021

National regulations
Water pollution class

Product is not dangerous to water, (self-assessment according AwSV).

15.2 Chemical safety assessment

Chemical safety assessments for substances in this product were not carried out.

Section 16: Other information
16.1 Indication of changes

Chapter	Previous entry (text/value)	Latest entry
